Special Event Superstore, LLC

Mission:

Our mission is to offer a quality product and service which is what our customers expect. SES,LLC is a subcontracted vendor that has designed a Scaffold Flooring System based on a metric scaffold. The understructure supports 125lbs psf (minimum) and converts to an imperial system after the installation beams and a plywood finish, this allows tents both American & European to be supported over a scaffold structure that is second to none.

About Us:

SES, LLC Scaffold Flooring System is available on both coasts, the understructure is pre engineered and the most versatile scaffold flooring system on the market today. Our Solidworks Cad Program with Simulation is one of the best programs available. SES, LLC has a in house Program Engineer that understands and communicates with the customers' needs and then transforms that need into a drawing. We also work directly with the most respected and trusted Engineering Firm in the industry who understands Entertainment, Events and Tournaments and is registered in 50 states.

Products:

SES,LLC scaffold is made in the USA and is 100% owned by SES,LLC. Our specially designed Trusses give us the highest PSF rating that again is second to none. Our Railing is designed also to work in any configuration 4', 2' 1' & 6" our railing is painted Aluminum / Silver and is powder coated. Our stair units and railing meets building code at 50lb PLF of thrust. SES, LLC has designed smaller scaffold parts that can adjust the scaffold unit to just about any size for any event.
